

ORANGE WATER AND SEWER AUTHORITY

*A public, non-profit agency providing water, sewer and reclaimed water services
to the Carrboro-Chapel Hill community.*

November 8, 2018

Dear Piney Mt. Homeowners Association Board of Directors:

Orange Water and Sewer Authority, under a 1994 Agreement with the Piney Mountain Homeowners' Association (PMHOA), operates and maintains the wastewater pump station, force main, and sewer collector lines that provide wastewater service to the individual properties within the Piney Mountain Subdivision.

On an annual basis OWASA provides a summary of the activities and expenditures related to the operation of the Piney Mountain Subdivision wastewater system. This report for Fiscal Year 2018 covers the period July 1, 2017 to June 30, 2018.

Financial Status:

A capital reserve fund was established to fund future renewal and replacement of the wastewater system components. The balance in the capital reserve account at the beginning of this reporting period was \$171,013.10 and the ending balance as of June 30, 2018, was \$206,053.09. Contributions to the capital reserve fund are currently \$50.00 per month per property. The capital reserve contribution will remain at \$50.00 per month per property; there is no proposed increase at this time.

OWASA's approval to operate the wastewater system requires that all direct and indirect cost for operation of the wastewater facilities that serve the Piney Mountain Subdivision must be recovered directly from the users. Any past due charges from properties that are in bankruptcy or foreclosure must be collected which requires any outstanding balance be divided equally among the remaining Piney Mountain customer base. As of the date of this report there are two past due accounts for service fees and capital reserve charges.

For budgetary purposes, it appears that the operation and maintenance expenses decreased slightly in the fiscal year 2018. The table below provides a summary of the total cost for system operation over the past five fiscal years, as well as an average.

Fiscal Year	Total Charges
2014	\$39,743.45
2015	\$36,435.10
2016	\$39,173.80
2017	\$39,335.71
2018	\$34,681.55
AVG	\$37,873.92

System Operation & Maintenance:

For the period between July 2017 and June 2018 the Piney Mountain Subdivision wastewater system required routine operational checks (currently performed once per week) and episodic after hours response calls. The significant corrosion potential from high hydrogen sulfide levels associated with the STEP system effluent to the pump station continues to provide on-going maintenance challenges. Detailed inspections performed found that the existing pumps and valves continue to be in satisfactory condition; the scheduled replacement for these items will be deferred until necessary. OWASA has seen great benefits in the completed capital improvement projects which consisted of electrical & control systems replacements, inclusive of full functionality of SCADA monitoring and a permanent on-site back-up emergency generator. These improvements were managed through OWASA's Capital Improvement Program. The capital reserve account provided the funds for this capital improvement project. OWASA will continue to evaluate future system improvement needs through our established comprehensive asset management program.

Oil and Grease Issues:

As noted in previous reports, the pump station continues to develop episodic buildup of grease which can result in operational problems and additional maintenance costs. Excess grease in the wastewater system is related to the improper disposal of fats, oils and grease (FOGs) primarily associated with cooking and dishwashing. Fats, oils and grease should not be discharged down the drain but wiped or scraped off cooking equipment and disposed of in the trash.

Pharmaceutical Disposal:

The proper disposal of pharmaceuticals is an area that OWASA continues to stress to its customers. The effect on the environment from pharmaceuticals and personal care products discharged into the wastewater system and eventually into waterways is an increasing concern. Unused pharmaceuticals should not be flushed down the toilet but rather taken to one of the pharmaceutical collection points sponsored by Chapel Hill or Durham. Collection points are typically located at fire departments or local shopping malls. You can check local town and hospital websites to see when and where pharmaceutical collection events are being offered.

Should you have any questions about this report please do not hesitate to call or email me at (919) 537-4205 or mdodson@owasa.org.

Sincerely,

A handwritten signature in black ink that reads "Monica Dodson". The script is cursive and fluid, with the first name "Monica" and last name "Dodson" clearly legible.

Monica Dodson

**PINEY MOUNTAIN SUBDIVISION WASTEWATER SYSTEM
ANNUAL REPORT - REPORT PERIOD: July, 2017-June, 2018**

CAPITAL RESERVE ACCOUNT:

Previous Balance as of 6/30/2017	\$ 171,013.10
Collected This Period	\$ 34,277.28
Interest This Period	\$ 762.71
Service Charges	\$.00
Expended This Period	<u>\$.00</u>
Balance as of 6/30/2018	\$ 206,053.09

BILLING/COLLECTION:

City of Durham	\$ 25,233.63
Piedmont Electric	\$ 2,037.84
Frontier (phone service)	\$ 864.15
Public Service Co. of NC	\$ 247.66
(Taproot Lane generator)	
Administrative	\$ 1,092.24
Maintenance	<u>\$ 5,206.03</u>
TOTAL	\$ 34,681.55
Billing Adjustments	<u>\$.00</u>
Billed to Home Owners	\$ 34,681.55
Total Expenses as of 6/30/18	

MAINTENANCE WORK PERFORMED:

Pump Station: Standard Maintenance

Collector Lines: No Work Required

Force Main: No Work Required

MAINTENANCE WORK SCHEDULED:

Pump Station: No Work Planned, at this time, beyond standard maintenance

Collector Lines: No Work Planned, at this time, beyond standard maintenance

Force Main: No Work Planned, at this time, however a future force main condition assessment and eventual replacement will be programmed into the future OWASA CIP

SEWER OVERFLOW:

Event Date: No sewer overflows during the report period

NUMBER OF CONNECTIONS:

Connections as of 6/30/18: 55
